Substance Hazard Information

Description of work area and/or activity assessed

BioHygiene Kitchen Cleaner and Degreaser is packed full of specialist microbes and enzymes for a helping hand to tackle tough kitchen cleaning tasks. Multi-purpose technology easily breaks down and removes grease, fat and oil from all types of Kitchen surfaces, including hobs, ovens, worktops, and floors. Our fast-acting formula contains no harsh chemicals, leaving behind only a hygienically clean, sparkling surface. Specialist biotechnology removes fat, oil, grease, and odours. Suitable for floors, worktops, hobs, and steelware. Non-slip, the non-steak formula leaves floors clean and free from slip hazards. Naturally derived, sustainable ingredients. Super-concentrate (1:100) helps reduce the amount of product needed per clean. Free from harsh chemicals. Available in 5L and 1L concentrate and ready-to-use spray. VOC-free and 100% biodegradable.

Overall Current Risk

Insignificant

Persons Affected

 Cleaners

 Contractors

 Customer / Client

 Employees

 Lone Workers

 Office Staff

 Other Service Providers

 Trainees / Young Persons

 Visitors

Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?

Yes

Additional Notes / Summary

All ABM staff will comply with the content of this COSHH assessment.

Current Likelihood of Harm

Highly Unlikely

Current Severity of Harm

Minor

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
BioHygiene Kitchen Cleaner & Degreaser RTU Substance Form: Liquid	Usage: Dilute 16ml of product into a trigger spray Spray surface. Allow contact time then wipe with a scourer or cloth. No need to rinse Duration: 5 Minute(s) Yearly	None	20/06/2019	N/A
Hazard Labeling				
None Specified				

Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Store in a dry place

≡ PPE (Personal Protective Equipment) Required

Eye Protection

Eye protection not applicable. Avoid contact with eyes.
Ensure spraying away from persons

Hand Protection

In case of repeated or prolonged contact wear gloves BS EN 374

Overalls / Clothing

No special requirement

Mask / Respirator

No respiratory protection needed under normal use conditions

≡ Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Dispose of contents/container in accordance with licensed collector's sorting instructions

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store in a dry place

How should accidental release/spillage of this substance(s) be dealt with

For containment : Stop leak without risks if possible.
Methods for cleaning up : Clean contaminated surfaces with an excess of water.
Other information : Small amount of unwanted product may be flushed with water to sewer.

Transport Information

Not Specified

≡ Emergency First-Aid Procedures

Inhalation

To our knowledge, the product does not present any particular risk, under normal conditions of use. Remove person to fresh air and keep comfortable for breathing.

Skin Contact

Wash skin with plenty of water.

Eye Contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Injection

Ingestion

Call a poison center or a doctor if you feel unwell.

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable under normal conditions.
 Conditions to avoid None under recommended storage and handling conditions
 Incompatible materials : Strong alkalis. Strong acids.
 Under normal conditions of storage and use, hazardous decomposition products should not be produced.

What actions should be taken in the event of a fire involving the substance(s)?

Suitable extinguishing media : Water spray. Dry powder. Foam. Carbon dioxide.
 Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

Could the release of vapour/gas/dust produce an explosive atmosphere

No

Is the flashpoint below 32°C for any of the substances identified

No

Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required
