Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?

Yes

Additional Notes / Summary

All ABM staff will follow the instructions listed in this assessment while using this product.

Current Likelihood of Harm

Unlikely

Current Severity of Harm

Minor

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
Cleanline Furniture polish CL4017 Substance Form: Liquid	Usage: Cleanline Furniture Polish CL4017 is a non-aerosol, wax-free polish suitable for various surfaces like paintwork, laminates, plastics, and sealed wood. To use it, simply apply the polish to the surface and wipe away with a clean cloth. It's designed to clean and shine surfaces quickly, removing dust and finger marks and leaving a smear-free finish. Application: Shake the bottle well before use. Spray a small amount of Cleanline Furniture Polish onto a clean cloth or directly onto the surface (depending on the product's instructions and personal preference). Avoid oversaturating the surface. Buffing: Rub the polish into the surface in a circular motion or along the grain of the wood. Work in sections to ensure even coverage. Wiping: Once the polish is applied, wipe off any excess with a clean, dry cloth. Drying (if needed): Some products may recommend allowing the polish to dry for a short period before using the furniture. Repeat: If necessary, repeat the process for areas with heavy buildup or more stubborn stains.	None	12/03/2021	N/A

Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Ensure adequate ventilation.
 Avoid contact with eyes and prolonged contact with skin.
 Rinse hands with plenty of water after handling this product.
 Do not eat, drink or smoke when using this product.

PPE (Personal Protective Equipment) Required

Eye Protection

Not required under recommended conditions of use.

Hand Protection

BS EN 166

Overalls / Clothing

ABM uniform.

Mask / Respirator

Not required under recommended conditions of use.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

The generation of waste should be minimised or avoided wherever possible.
The packaging must be empty (drop-free when inverted).
Wash with plenty of water. Waste packaging should be collected for reuse or recycling. Refer to manufacturer/supplier for information on recovery/recycling.
Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store in tightly-closed, original container in a dry, cool and well-ventilated place.
Store upright to prevent spillages.

How should accidental release/spillage of this substance(s) be dealt with

In case of spills, beware of slippery floors and surfaces.
Do not discharge into drains or watercourses or onto the ground.
Stop leak if safe to do so. Absorb in vermiculite, dry sand or earth and place into containers.
Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or watercourses.

Transport Information

Not Specified

Emergency First-Aid Procedures

Inhalation

Move affected person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues.

Skin Contact

Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention if irritation persists after washing.

Eye Contact

Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing. Show this Safety Data Sheet to the medical personnel

Ingestion

Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention if any discomfort continues.

Injection

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable at recommended ambient temperatures.
Conditions to avoid: Avoid exposure to high temperatures or direct sunlight.
Stable at recommended ambient temperatures.

What actions should be taken in the event of a fire involving the substance(s)?

The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Foam, carbon dioxide or dry powder.
Hazardous combustion products: Thermal decomposition or combustion products may include the following substances: Oxides of carbon. Toxic gases or vapours.
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
Control run-off water by containing and keeping it out of sewers and watercourses.

Could the release of vapour/gas/dust produce an explosive atmosphere

No

Is the flashpoint below 32°C for any of the substances identified

No

Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required.
