 Visitors

Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?

Yes

Additional Notes / Summary

All ABM employees will follow the instructions listed in this assessment while using this product.

Current Likelihood of Harm

Unlikely

Current Severity of Harm

Moderate

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
Diversey Bryta Oven & Grill Foam Cleaner Substance Form: Mist	Usage: Wear appropriate personal protective equipment. Spread paper under oven door to protect floor. Spray generously, 9-12 inches from the surface to be cleaned. When spraying is complete, close oven door and allow the product to work for 20 minutes. Rinse well and ventilate oven before re-using the oven. Duration: 20-30 Minute(s) When Required	Danger	08/02/2024	C

Hazard Labeling

List ingredients or components with an exposure limit identified	Exposure Limit (Long-term / Short-term)
Butane	(600ppm - 1450mg/m3) 8hr / (750ppm - 1810mg/m3) 15min
propane	None Specified
Propane-1,2-diol total vapour and particulates	(474mg/m3) 8hr
alkyl alcohol ethoxylate	None Specified
Sodium hydroxide	(-mg/m3) 8hr / (2mg/m3) 15min

The highest substance hazard group found is : **C**

A	B	C	D	E
Least hazardous substances		more hazardous substances		Special cases

Warning

A chemical you have identified in this process has been given the high hazard group of **C**. Before carrying on you may want to consider using a less harmful chemical.

- Please speak to your supplier to see if there is another chemical you can use which will do the job satisfactorily.
- You may want to use the chemical in a less harmful form, e.g. use pellets instead of powder.
- You may also want to think about changing the process, for example using less of the chemical or a lower process temperature.

Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Provide a good standard of general ventilation. Ensure that foam equipment does not generate respirable particles.
 Store in accordance with local and national regulations. Keep away from heat and direct sunlight

PPE (Personal Protective Equipment) Required

Eye Protection

Safety glasses or goggles BS EN 166

Hand Protection

Chemical-resistant protective gloves BS EN 374 nitrile rubber

Overalls / Clothing

No special requirements under normal use conditions.
 Wear chemical-resistant clothing and boots in case direct dermal exposure and/or splashes may occur BS EN 14605

Mask / Respirator

Respiratory protection is not normally required.
 However, inhalation of vapour, spray, gas or aerosols should be avoided.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Waste from residues / unused products:
The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation.

European Waste Catalogue: 16 05 04* - gases in pressure containers (including halons) containing dangerous substances.

Empty packaging

Recommendation: Dispose of observing national or local regulations.

Suitable cleaning agents: Water, if necessary with cleaning agent.

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store in accordance with local and national regulations. Keep away from heat and direct sunlight

How should accidental release/spillage of this substance(s) be dealt with

Use neutralising agent. Absorb liquid components with liquid-binding material.

Transport Information

Not Specified

Emergency First-Aid Procedures

Inhalation

Get medical attention or advice if you feel unwell.

Skin Contact

Wash skin with plenty of lukewarm, gently flowing water for at least 30 minutes. Take off immediately all contaminated clothing and wash it before reuse. Immediately call a POISON CENTRE, doctor or physician.

Eye Contact

Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE, doctor or physician.

Ingestion

Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Keep at rest. Immediately call a POISON CENTRE, doctor or physician.

Injection

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable under normal storage and use conditions.
Conditions to avoid None known under normal storage and use conditions.
Incompatible materials May be corrosive to metals. Reacts with acids.
Hazardous decomposition products None known under normal storage and use conditions

What actions should be taken in the event of a fire involving the substance(s)?

Extinguishing media Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.
Cool endangered packaging with water spray jet.
As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

Is the flashpoint below 60°C for any of the substances identified

No

Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required
