Substance Hazard Information

Description of work area and/or activity assessed

Nu-Super Trap is a grease trap treatment. Concentrated bacterial formulation that eliminates odours and quickly biodegrades fat accumulations and other organic residues in grease traps and connected pipes.

Overall Current Risk

Insignificant

Persons Affected

 Cleaners

 Contractors

 Employees

 Lone Workers

 Other Service Providers

Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?

Yes

Additional Notes / Summary

All ABM employees will follow the instructions listed in this assessment while using this product.

Current Likelihood of Harm

Highly Unlikely

Current Severity of Harm

Minor

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
Innuscience Nu Super Trap ISEU-023-00 Substance Form: Liquid	Usage: Use manually or with an automated micro-aeration system. Pour 100 ml per m3 per day. Duration: 3-5 Minute(s) When Required	Warning	16/03/2021	A

Hazard Labeling

List ingredients or components with an exposure limit identified	Exposure Limit (Long-term / Short-term)
Alcohols, C9-11, branched and linear, ethoxylated	None Specified
5-Chloro-2- Methyl-2H-Isothiazol-3-one and 2- Methyl-2H-Isothiazol-3-one	None Specified

The highest substance hazard group found is : **A**

A	B	C	D	E
Least hazardous substances		more hazardous substances		Special cases

Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Store in the original container at room temperature.
 Protect from direct sunlight and exposure to heat. Store the product closed and in its original packaging only.
 Store in a place that is only accessible to authorized persons
 ABM Uniform
 Do not drink, eat or smoke near the product. Wash hands before and after handling.

PPE (Personal Protective Equipment) Required

Eye Protection

Appropriate protective glasses or chemical safety glasses BS EN 16

Hand Protection

No hand protection is required in general. Wash hands thoroughly after handling.

Overalls / Clothing

ABM Uniform

Mask / Respirator

No respiratory protection is required in general.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Dispose in accordance with local and national regulations

Waste disposal number of waste from residues/unused products
 070699 WASTES FROM ORGANIC CHEMICAL PROCESSES;
 wastes from the MFSU of fats, grease, soaps,
 detergents, disinfectants and cosmetics; wastes not otherwise specified

Waste disposal number of used product
 070699 WASTES FROM ORGANIC CHEMICAL PROCESSES;
 wastes from the MFSU of fats, grease, soaps,
 detergents, disinfectants and cosmetics; wastes not otherwise specified

Disposal of contaminated packaging
 Clean the container with water. Return the cleaned packaging to recycling.

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store in the original container at room temperature.
 Protect from direct sunlight and exposure to heat. Store the product closed and in its original packaging only.
 Store in a place that is only accessible to authorized persons

How should accidental release/spillage of this substance(s) be dealt with

Avoid release to the environment.
 Clean contaminated sites immediately.

Transport Information

Not Specified

Emergency First-Aid Procedures

Inhalation

Move victim to fresh air. Get medical attention if you feel unwell.

Skin Contact

Wash skin with water and soap. If skin irritation occurs, get medical attention.

Eye Contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 If eye irritation persists: Get medical attention.

Injection

Ingestion

Get medical attention if you feel unwell.

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable under normal conditions of use and storage.
 Conditions to avoid Prolonged storage at temperatures above 40°C or direct light may alter the color of the product
 Under normal conditions of storage and use, hazardous reactions will not occur

What actions should be taken in the event of a fire involving the substance(s)?

Extinguishing media Water, foam, carbon dioxide, chemical powder
 Hazards arising from the substance or mixture No data available
 In case of fire: Wear appropriate apparatus of breathing and protective clothing.

Is the flashpoint below 60°C for any of the substances identified

No

Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required
 All ABM employees will follow the instructions listed in this assessment while using this product.
