Substance Hazard Information

Description of work area and/or activity assessed

Selden Selffreez is produced as a chewing gum remover but is also suitable for the removal of other sticky deposits. It rapidly freezes chewing gum and sticky deposits so that they may be quickly and easily scraped from carpets and furnishings. Selden Selffreez freezes down to 80C. It will not attack fabrics or plastics.

Current Likelihood of Harm

Unlikely

Current Severity of Harm

Minor

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
Selden Selffreeze chewing gum remover spray K003 Substance Form: Mist	Usage: Spray onto sticky substance. Scrape off with a knife when white frost hardens it. If substance softens before removed completely, repeat the above directions N.B. Use spray at least 15cm from exposed skin, extended spray release may result in cold injury from the can.	Danger	22/07/2019	N/A
Hazard Labeling				
				
List ingredients or components with an exposure limit identified		Exposure Limit (Long-term / Short-term)		
butane substance with national workplace exposure limit(s) (GB)		(600 ppm 1450 mg/m³ 8hr / (750 ppm 1810 mg/m³) 15min		

☰ Process Control

Can a less hazardous substance(s) be used to do the same job?	No
---	----

What controls are required for this substance(s) other than Personal Protective Equipment

Do not pierce or burn, even after use.
Do not spray on an open flame or other ignition source.
Avoid contact with eyes.
Do not eat, drink or smoke when using this product.
Keep away from food, drink and animal feeding stuffs.
Do not mix with other products unless advised by manufacturer.
Wash hands after handling the product. Remove contaminate clothing and wash before re-use.
Use in well ventilated areas.

☰ PPE (Personal Protective Equipment) Required

Eye Protection

BS EN 166

Hand Protection

BS EN 374-1

Overalls / Clothing

ABM uniform.

Mask / Respirator

Not required for normal conditions of use.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Do not pierce or burn, even after use.
The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit.
Release of waste to sewers is discouraged.

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Keep away from ignition sources.
Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
Incompatible products : Oxidizing agent. Strong acids. Strong bases.
Incompatible materials : Direct sunlight. Heat sources.
Sources of ignition.
Keep only in original container.
Store in a cool, dry and well ventilated area.
