| Assessment Title   | Cleanline Non-biological washing powder |

#### Associated to specific area

-  ABM UK Facilities
- Savills
- High Wycombe - Eden Shopping Centre - HP11
- All

#### Essentials Category

A

#### Substance Hazard Information

#### Description of work area and/or activity assessed

Cleanline Non Biological powder is a zeolite based, phosphate free laundry powder which is kinder on the water courses and environment.

### Overall Current Risk

# Insignificant

### Persons Affected

-  Cleaners
-  Contractors
-  Employees
-  Expectant / New Mothers
-  Maintenance Staff
-  Office Staff
-  Security Officers
-  Trainees / Young Persons
-  Visitors
-  Volunteers

## Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?

Yes

## Additional Notes / Summary

All ABM staff will follow the instructions listed in this assessment while using this product.

Current Likelihood of Harm

Unlikely

Current Severity of Harm

Minor

## Substance Information

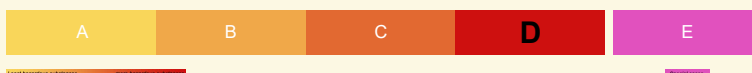

| Substance Name                                                    | Usage Information                                                                                                                                                    | Signal Word | SDS Date   | Category |
|-------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|------------|----------|
| Cleanline Non-biological washing powder<br>Substance Form: Powder | <b>Usage:</b> Use powder in the dispenser drawer.<br>Do not overload your washing machine.<br>Always check the article's care label and follow washing instructions. | Warning     | 05/11/2018 | A        |

## Hazard Labeling

| List ingredients or components with an exposure limit identified | Exposure Limit (Long-term / Short-term) |
|------------------------------------------------------------------|-----------------------------------------|
| C12-15 FATTY ALCOHOL 7MOL EO                                     | None Specified                          |
| SODIUM SILICATE CRYSTAL                                          | None Specified                          |
| SODIUM CARBONATE                                                 | None Specified                          |
| SODIUM PERCARBONATE                                              | None Specified                          |
| SODIUM DODECYLBENZENESULFONATE                                   | None Specified                          |

The highest substance hazard group found is : **A**

### Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Use in well ventilated area.  
 Avoid contact with skin and eyes.  
 Wash hands and any other contaminated areas of the body with soap and water before leaving the work site.  
 Do not eat, drink or smoke when using the product.  
 Do not leave product unattended on site.  
 Do not mix with other products unless advised by manufacturer.

### PPE (Personal Protective Equipment) Required

Eye Protection

BS EN 166

Hand Protection

BS EN 374-1

Overalls / Clothing

ABM uniform.

Mask / Respirator

Not required under normal conditions of use.

### Storage, Spillage, Disposal and Transport

|                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |            |                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

 Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable at normal ambient temperatures.  
No specific material or group of materials is likely to react with the product to produce a hazardous situation.  
No known hazardous decomposition products.

What actions should be taken in the event of a fire involving the substance(s)?

Suitable extinguishing media The product is not flammable.  
Use fire-extinguishing media suitable for the surrounding fire.  
Foam, carbon dioxide or dry powder.  
The product is non-combustible.  
Control run-off water by containing and keeping it out of sewers and watercourses.  
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

Could the release of vapour/gas/dust produce an explosive atmosphere

No

Is the flashpoint below 32°C for any of the substances identified

No

 Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required.
