AMINES, C12-14 -ALKYLDIMETHYL, N-OXIDES	None Specified
BRONOPOL (INN)	None Specified

The highest substance hazard group found is : **A**

Process Control

Can a less hazardous substance(s) be used to do the same job?

No

What controls are required for this substance(s) other than Personal Protective Equipment

Provide adequate ventilation. Avoid spilling. Avoid contact with skin and eyes.

Avoid breathing vapour/spray. Do not mix with other household chemical products. Do not mix with acid.

Do not eat, drink or smoke when using this product. Wash skin thoroughly after handling. Take off contaminated clothing and wash it before reuse. Use appropriate hand lotion to prevent defatting and cracking of skin.

PPE (Personal Protective Equipment) Required

Eye Protection

Not required under normal conditions of use.

Hand Protection

BS EN 374-1

Overalls / Clothing

ABM uniform.

Mask / Respirator

Not required under normal conditions of use.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Do not discharge into drains or watercourses or onto the ground.

Dispose of waste through a registered waste carrier as per site procedures.

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store at room temperature. Keep out of the reach of unauthorised personnel. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

How should accidental release/spillage of this substance(s) be dealt with

Take care as floors and other surfaces may become slippery. Do not discharge into drains or watercourses or onto the ground.

Stop leak if safe to do so. Absorb in vermiculite, dry sand or earth and place into containers.

Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or watercourses.

Transport Information

Not Specified

Emergency First-Aid Procedures

Inhalation

Move affected person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues.

Skin Contact

Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention if irritation persists after washing.

Eye Contact

Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if symptoms are severe or persist after washing. Show this Safety Data Sheet to the medical personnel.

Ingestion

Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention if any discomfort continues.

Injection

Get medical attention.

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable at normal ambient temperatures.
Conditions to avoid: Avoid exposure to high temperatures or direct sunlight.

What actions should be taken in the event of a fire involving the substance(s)?

Suitable extinguishing media: The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Foam, carbon dioxide or dry powder.
Thermal decomposition or combustion products may include the following substances: Oxides of carbon. Toxic gases or vapours.
Control run-off water by containing and keeping it out of sewers and watercourses.
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

Could the release of vapour/gas/dust produce an explosive atmosphere

No

Is the flashpoint below 32°C for any of the substances identified

No

Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required.
