Assessment Of Risk

Are hazards to health adequately controlled with all the above control measures in place?	Yes
Additional Notes / Summary	
All ABM staff will follow the instructions listed in this assessment while using this product.	
Current Likelihood of Harm	Unlikely
Current Severity of Harm	Minor

Substance Information

Substance Name	Usage Information	Signal Word	SDS Date	Category
OdorBac Toilet & scale sanitary cleaner Substance Form: Liquid	Usage: Toilets & Urinals cleaning: Apply under rim and in toilet bowls Leave to act for 5-10 minutes Scrub with a toilet brush Flush the toilet Limescale Deposits removal: Apply using bottle or foaming spray Leave to act for 5-30 minutes Scrub with a brush or cloth Rinse clean	None	25/04/2023	N/A
Hazard Labeling				
None Specified				

☰ Process Control

Can a less hazardous substance(s) be used to do the same job?	No
 What controls are required for this substance(s) other than Personal Protective Equipment	
Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless advised by manufacturer. Wash hands before breaks and at the end of workday. Wash face, hands and any exposed skin thoroughly after handling. Take off immediately all contaminated clothing. Use personal protective equipment as required. Use only with adequate ventilation. Do not leave product unattended on site.	

☰ PPE (Personal Protective Equipment) Required

 Eye Protection BS EN 166	 Hand Protection BS EN 374-2 or above
 Overalls / Clothing ABM uniform	 Mask / Respirator Not required under recommended conditions of use.

Storage, Spillage, Disposal and Transport

How should the substance(s) be disposed of?

Do not discharge the product in drains or waterways.
Empty the container completely. Keep the label(s) on the container.
Do not reuse the packaging.
Waste codes:
07 06 01 aqueous washing liquids and mother liquors
15 01 02 plastic packaging

Have persons undertaking this process been provided with information or training?

Yes

How should the substance(s) be stored?

Store closed in a dry, well-ventilated and cool place.
Store in the original container.
Keep away from food and drink, including those for animals.
Keep out of reach of children.
Respect the expiration date indicated on the packaging.
Store away from all sources of heat and incompatible materials.
Controlled and limited access (keep locked). Control the humidity.
The opened packaging must be carefully closed and kept in the vertical position.
Store away from frost.

How should accidental release/spillage of this substance(s) be dealt with

Avoid contact with the eyes.
Alert / evacuate people in the immediate area.
Shut off the source of the spill.
Isolate the contaminated area.
Put on personal protective equipment.
Contain and collect leaks with non-combustible absorbent materials, for example : sand, soil, vermiculite, diatomaceous earth in drums for disposal of waste.
Prevent runoff into waterways, sewers, basements or confined spaces (beyond recommended rate and use).
Stop the leak if it can be done without risk.
Do not walk in or touch the spilled product.
Collect the liquid using an absorbent product (sand, neutralizing acid, universal binder, sawdust, soil, etc.) in drums for disposal of waste.
Use clean tools to collect the absorbed product.

Transport Information

Not Specified

Emergency First-Aid Procedures

Inhalation

In case of massive inhalation, move the victim to fresh air. No adverse effects anticipated by this route of exposure incidental to proper industrial handling.

Skin Contact

If skin irritation persists, or in case of allergic manifestation, consult a specialist doctor.

Eye Contact

Rinse the eye thoroughly with lukewarm water (20 to 25 ° C), soft and clean (or with physiological saline), for at least 15 minutes, keeping the eyelids open. Avoid splashing towards the unaffected eye (e.g. using a compress). Water always flows from the nose to the ear. Move the eye in all directions when rinsing. Take out contact lenses if the victim wears lenses and if it is possible to take them out of the eyes easily. Continue to rinse. If the eye irritation persists, or if new symptoms (pain, visual discomfort) occur, consult an ophthalmologist.

Injection

Ingestion

Rinse mouth. Do not induce vomiting, rinse mouth. Consult a doctor immediately. Bring to the free air in case of massive inhalation. Keep him in a warm place and at rest. Consult a doctor.

Fire Safety

Is there any other substance that this substance(s) must not come into contact with?

Stable under recommended conditions of storage and use. Do not mix with other products.

What actions should be taken in the event of a fire involving the substance(s)?

All extinguishing agents are permitted: foam, sand, carbon dioxide, water, powder.
Extinguishing media which must not be used: Water jet (risk of fire spreading).
Possibly, and because of the presence of organic matter, a fire could produce a thick black smoke. The exposure to the products of decomposition could involve health risks.
Do not breathe fumes.
Full protective clothing.
Wear self-contained respiratory protective device (insulating stand-alone respiratory protective device).
Prevent heating of containers exposed to fire by spraying with water (water curtain).
Avoid spraying water directly onto the storage tank to prevent the product from overflowing.
Do not allow extinguishing water to enter sewers or waterways. Treat as hazardous waste

Could the release of vapour/gas/dust produce an explosive atmosphere

No

Is the flashpoint below 32°C for any of the substances identified

No

 Health / Medical Surveillance

If required, what health surveillance is undertaken in the use of these substance(s)?

None required.
