Step by Step cleaning instructions

PLEASE WASH YOUR HANDS BEFORE YOU BEGIN YOUR TASK

Only trained operatives to use this machinery.

Transport machine to area of work in transport mode being aware of pedestrians & vehicles on route

Only operate the machine in conditions and the manner it was designed for.

Place safety signage or cordon off area to be cleaned.

Litter Pick any litter in the area that the machine is unable to reach, ie: behind pillars/under stairs/trolley bays etc

Work in a pattern to ensure all area is covered, working at a safe effective pace. Repeat this until process until the area is completely litter & debris free

Remove cordon/signage when it is safe to do so.

Leave safety signage in place until area is dry and safe
