

Through our **Exclusive Brands**, we have launched a New year, New leaf campaign this January.

Our aim is to help businesses achieve their sustainability goals, by promoting environmentally friendly products through our **5 solutions**.

Solutions for a sustainable future

Plastic Reduction

Plant-Based Materials

Reduce Carbon Footprint

Water Reduction

Increased Recyclability

Laundry Leaves: 90% smaller & lighter than traditional formats, packaged in recyclable, biodegradable cardboard.

Offering you products with plant based and natural ingredients as an alternative to synthetic ingredients.

Choosing carbon neutral products or those which help reduce transportation needs helps to reduce your carbon footprint.

Helping you choose products that reduce the amount of water used while cleaning.

Eliminate single-use plastic for handwashing with this luxurious foaming handwash.

www.bunzlchs.com

ARE YOU PREPARED

FOR WASTE MANAGEMENT LEGISLATION?

In Wales, from 6th April 2024, new legislation will mean material that is prime for recycling must be separated prior to collection for processing off site and kept separate throughout waste processing activities.

There are six streams of recyclable waste defined within the new legislation which are referred to as a facility's "separation requirements":

Food Waste – for any facility creating more than 5KG of waste per week

Material Waste – Metals, Plastics and other packaging of a similar composition

Paper and Card

Glass

Electronic Equipment

Unsold Textiles

AS IN WALES, THE ENGLISH GOVERNMENT IMPOSES SPECIFIC LEGISLATIVE REQUIREMENTS ON COMMERCIAL ENTITIES AND THE WASTE COLLECTED ON, AND TRANSPORTED FROM, THEIR PREMISES.

RECYCLING PRODUCT SOLUTIONS

RCP has a broad range of containers & trucks to support your business with internal waste collection and movement, maximising recycling and minimising contamination.

All of our waste and recycling containers are manufactured to stand the test of time and come with up to 10 year warranties to provide you with added peace of mind.

WASTE DISPOSAL

Where waste is created, it must also be collected. Our product solutions help to centralise the accumulation of waste.

1

FRONT OF HOUSE

SLIM JIM
RECYCLING
STATION

CONFIGURE

DECORATIVE RECYCLING

Modular, colour-coded solutions for collecting and recycling multiple waste streams at any facility.

SLIM JIM
STEP-ON

STEP-ON CONTAINERS

Sealed lid containers that isolate germs and odours with risk-reducing foot operation to reduce contamination touchpoints.

2

BACK OF HOUSE

SLIM JIM
VENTED

SLIM JIM CONTAINERS

High capacity back-of-house containers that collect waste where it accumulates with a bag cinch system.

BRUTE

WASTE STORAGE

Durable units designed to store waste from multiple points around a facility prior to being moved elsewhere.

3

WASTE MOVEMENT

WASTE MANAGEMENT

Once waste has accumulated, it must be aggregated and moved to collection points ready to be taken off-site.

HIGH CAPACITY TRUCKS

Large volume, mobile containers that move collected waste from back of house storage to collection points for off-site processing.

MEGA BRUTE

CUBE TRUCK

TILT TRUCK

WASTE MANAGEMENT RANGE 2024

BUNZL BCHS
Cleaning & Hygiene Supplies

www.bunzlchs.com

Durable Sensor Waste Bin 35L Silver

Waste bins for contactless operation via sensor technology.

Opens by motion sensor and closes automatically.

Colour: ○ 017598

Dimensions: 69cm x 35.4cm x 30.5cm

Durable Pedal Bin Stainless Steel Round 5L

Stainless steel pedal bin that has a 5 litre capacity. Perfect for use in the office, warehouse or at home

Colour: ○ 017596

Dimensions: 30.5cm x 21.5cm x 21.5cm

Fire Safe Waste Bin Round Silver 15 Litre

15 litre free-standing round metal bin with fire extinguishing lid. Fire preventative protection is provided by the aluminium lid which disrupts the oxygen flow inside the bin suffocating flames early on.

Colour: ○ 017595 ● 017594

Dimensions: 35.7cm x 27cm x 26cm

Rubbermaid

Commercial Products

Space saving waste management. Designed to fit intight spaces. Durable, all-plastic construction is easy to clean.

Slim Jim Front Step On Stainless Steel Bin 50L

Safely collect waste with Rubbermaid touch-free Step-On containers.

Colour: ○ 017249

Dimensions:
72.8cm x 80cm x 46cm

Slim Jim With Venting Channels 87L Beige

Colour: ○ 017131

Dimensions:
100cm x 59cm x 28.2cm

Slim Jim With Venting Channels 87L Black

Colour: ● 017132

Dimensions:
69cm x 35.4cm x 30.5cm

Slim Jim 68L Resin Front Step-On Beige

Colour: ○ 017127

Dimensions:
83.13cm x 31.11cm x 51.43cm

Slim Jim 68L Resin Front Step-On Gray

Colour: ● 017125

Dimensions:
83.13cm x 31.11cm x 51.43cm

Premium quality construction ensures product durability in highly demanding environments and comes with a 10 year warranty.

Facilitate the air flow inside of the bin, and make removing liners up to 80% easier to reduce the risk of worker injury.

Premium quality construction ensures product durability in highly demanding environments and comes with a 5 year warranty.

Silent closing system ensures quiet and controlled lid closure to reduce noise.

Smooth surfaces & contoured edges are easy to maintain.

DURABLE

Durabin Rectangular Eco Waste Bin 60L

60 litre waste bin made from eco-friendly materials, in black with handles for easy transportation. Ideal for waste-disposal and recycling.

Colour: ○ 017574 ● 017575

Dimensions: 100cm x 59cm x 28.2cm

Durabin Rectangular Eco Lid 60L

Durable Eco-Friendly Lid for DURABIN 60 litre. With easy grip handle for easy transportation and available in a wide range of colours to help aid recycling.

Colour: ○ 017576 ● 017577

Dimensions: 5.8cm x 50.1cm x 27.2cm

Durabin Rectangular Hinged Lid 60L

Rectangular frame with hinged lid for DURABIN 60's.

Colour: ● 017578

● 017579

● 017580

○ 017581

Dimensions:

35.7cm x 27cm x 26cm

Durabin Green Rectangular Hinged Lid 60L With 2 Holes

Rectangular frame with hinged lid with two circular holes for the disposal of bottles or cans.

Colour: ● 017582

Dimensions: 7.3cm x 51cm x 28.5cm

Durabin Blue Rectangular Hinged Lid With Slot 60L

Rectangular frame with hinged lid with a slot cut-out for the disposal of paper or cardboard.

Colour: ● 017583

Dimensions: 7.3cm x 51cm x 28.5cm

CleanWorks Recycling Paper Waste Bin Blue 70L (EA)

Professional recycling system with 4 waste stream labels, 4 lid openings, and 4 colors options that fit your unique recycling needs. Larger waste capacity (70 Litres).

Colour: ● 117036 ○ 117037 ● 117038 ● 117039

Dimensions: 48cm x 38.3cm x 75.5cm

CleanWorks®

Slim Jim With Venting Channels 87L

Enable easy waste management and reduce worker strain in any facility.

Colour: ○ 017131

● 017132

Dimensions:

7.3cm x 51cm x 28.5cm

Slim Jim Recycle Station Bundle 3 Stream (EA) W/O Stickers

Colour: ○ 017970

47.5cm x 32cm x 32cm

Brute Container 121.1L

BRUTE Containers are highly durable waste containers built to last and created with the toughest environments in mind.

Colour: ● 017138 ● 017136

● 017137 ● 017392R

Dimensions:

70.8cm x 57.5cm x 64.5cm

Round Plastic Waste Bin 16L

Round plastic waste bin with a 16 litre capacity for use in workplaces or in the home.

Colour: ○ 017585 ● 017587

● 017588 ● 017590

Dimensions: 47.5cm x 32cm x 32cm

Durable Black Metal Waste Bin Round with Ring 15L

Round metal waste basket in Silver with 30mm perforated ring for stylish design.

Colour: ● 017591 ○ 017592

Dimensions:

31.5cm x 26.5cm x 26.5cm

Fire Safe Waste Bin Round Silver 15 Litre

15 litre free-standing round metal bin with fire extinguishing lid. Fire preventative protection is provided by the aluminium lid which disrupts the oxygen flow inside the bin suffocating flames early on.

Colour: ○ 017595 ● 017594

Dimensions:

35.7cm x 27cm x 26cm

Durable Black Metal Waste Bin Round 15L

Product is 100% recyclable and is made from 60% recycled content.

Colour: ● 017593

Dimensions:

31.5cm x 26.5cm x 26.5cm

Space saving waste management. Designed to fit in tight spaces. Durable, all-plastic construction is easy to clean.

Slim Jim 68L Resin Front Step-On

Safely collect waste with touch-free closed lid containers.

Colour: ● 017125 ○ 017127

Dimensions: 83.13cm x 31.11cm x 51.43cm

Green Kitchen Food Caddy 10L

10 litre kitchen caddy or compost bin for food waste. These caddies are ideal to sit on your worktop or window sill to collect food waste.

Colour: ● 117802

Dimensions:

H30cm x W23cm x D24cm

Grit/Salt Yellow Bin 10 Cubic Foot

Strong durable grit bin, stackable within its design. Produced from UV stabilised polyethylene

Colour: ● 017850

Grit/Salt Yellow Bin 6 Cubic Foot

Colour: ● 017851

Grit & Salt Bins

Frame Sack Holder with Lid

Fully assembled 92 litre capacity sack holder with a colour coded lid.

Colour: ○ 017021W

Dimensions:

34cm x 17cm x 15cm

Bag Hoop & Wall Bracket Set Green

355mmø Polypropylene Bag Hoop with 120mm Wall Bracket designed for easy storage and use.

Colour: ● 016171

Dimensions:

41.8cm x 38.2cm x 37.8cm

Rubbermaid Atrium Aluminium Bin 132.5L

The classic design of this indoor receptacle compliments the decor of high spec indoor facilities.

Colour: ● 017113

Dimensions:

81.28cm x 45.72cm x 45.72cm

50L Recycled Wall Mounted Litter Bin

A 50Litre wall or post-mounted outdoor litter bin made from high-density 60% reclaimed waste polyethylene.

Colour: ● 017205

Dimensions:

62cm x 41cm x 28cm

Rubbermaid Half Round With Plastic Liner 34L

The sleek and functional design of this indoor receptacle blends nicely with upscale environments.

Colour: ● 017114

Dimensions:

81.3cm x 22.9cm x 45.8cm

Silhouette Large Rectangle Bin 85L

Sleek shape and contemporary pattern beautifully blend with modern facilities and environments.

Colour: ● 017115

About Pudu

Four-in-one Versatile Cleaning

- **Sweeping, Scrubbing, Vacuuming and Dust Mopping** multi-function in one. All cleaning needs can be easily met by one machine.
- **Two main cleaning modes:**
 1. Sweeping + Vacuuming + Mopping
 2. Scrubbing
- **Modular Component Design:** Removing the accessory is no longer a tedious task, but a fast and efficient one. **Accessories** (such as side brush, roller brush, squeegee, and mopping sweeper) can be loaded and unloaded within **1 minute**.

Suit Various Floor Types

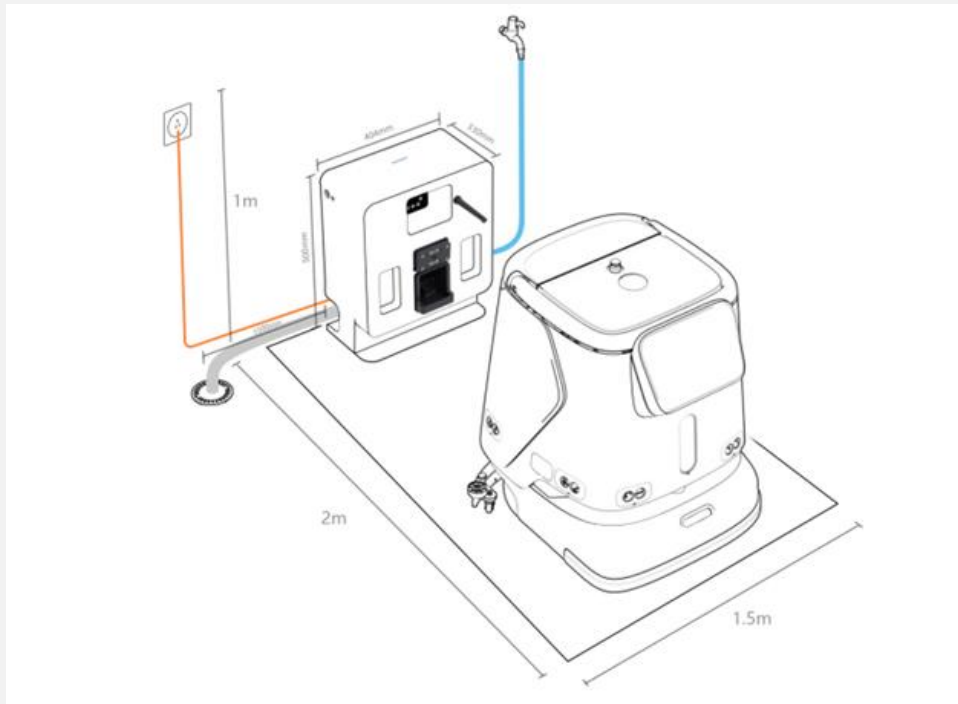

- Suitable for indoor floors with **different materials and hardness**:
- **Hard floor**: Nature Stone, Terrazzo, marble, floor tile, epoxy resin, sandstone, artificial stone flooring, etc.
- **Soft floor**: Low-pile carpet

Fit Corners Perfectly

- **Ultimate edge cleaning(<6cm edge to edge)** in certain scenes with side brushes. It performs edge sweeping well with no trash left behind.

Automatic Recharging

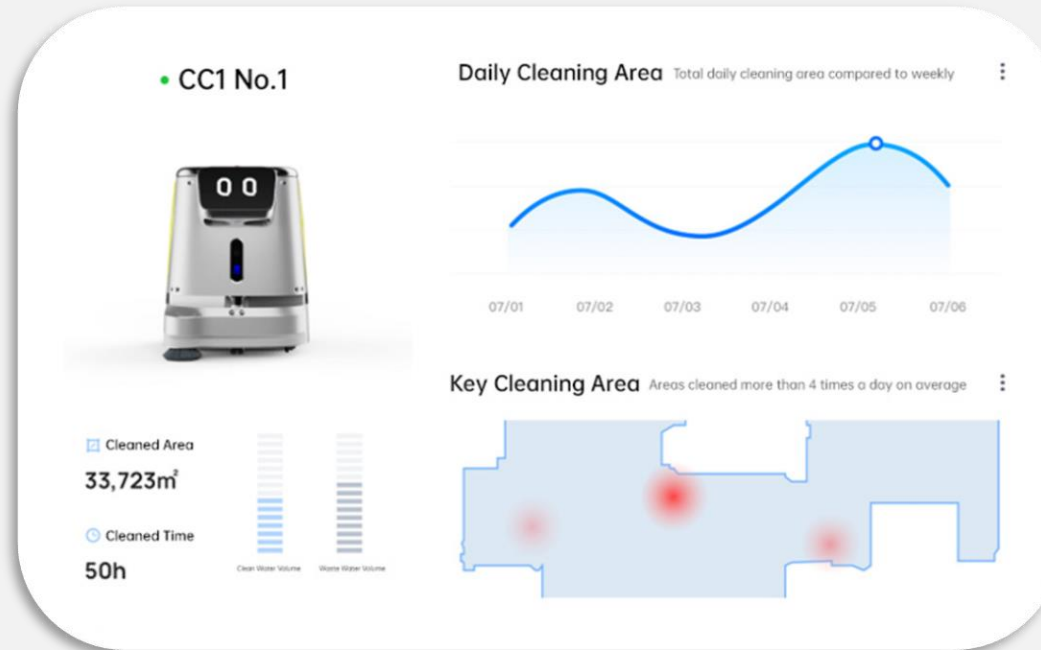

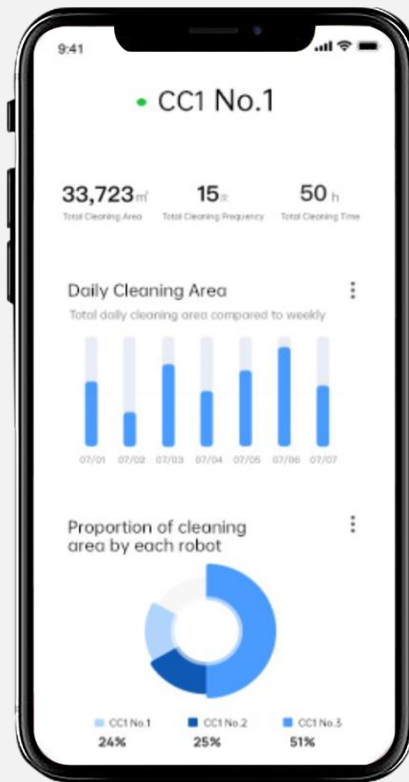

- **The robot will automatically return to the workstation*** when the power is low.

Automatic Water Addition & Drainage

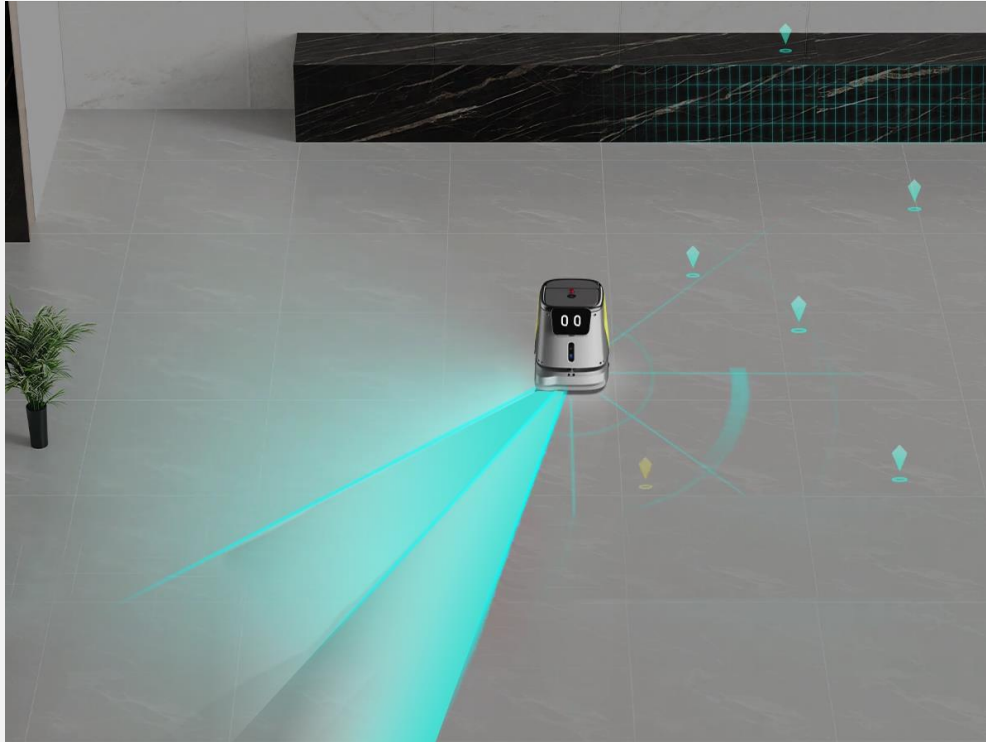

- **Large Capacity: 15L clean water tank and 15L waste water tank** with an exclusive workstation
- **Automatically fill and drain the water** at the workstation*
- No manual intervention, worry-free and labor-saving

Digital Cleaning

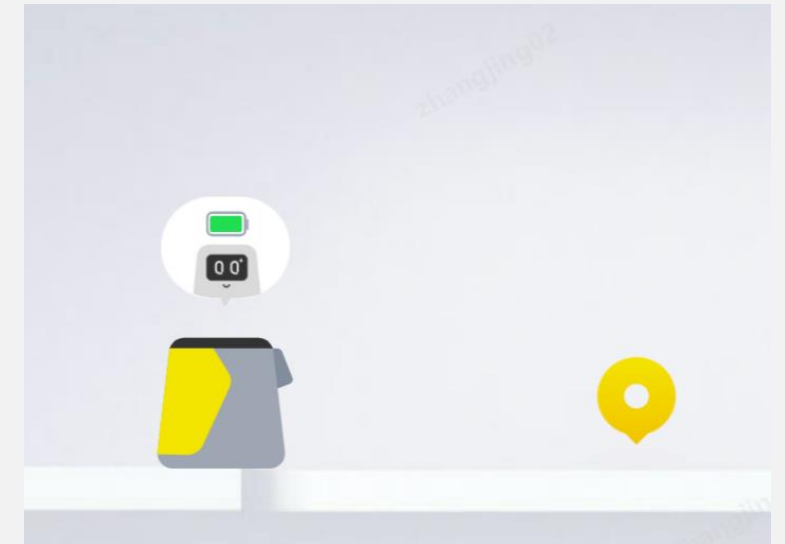

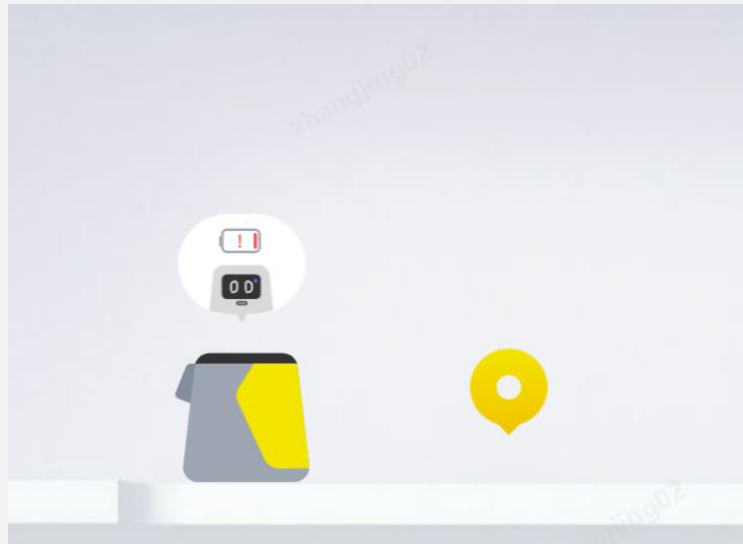

- **Remote operation via APP**, work status can be checked at any time.
- **Get real-time notifications for cleaning performance**, such as cleaning time and cleaning area.
- **Digitization and visualization of cleaning effects**: collect and summarize the working status of each unit, and **automatically generate cleaning reports**.

Automatic Localization & Navigation

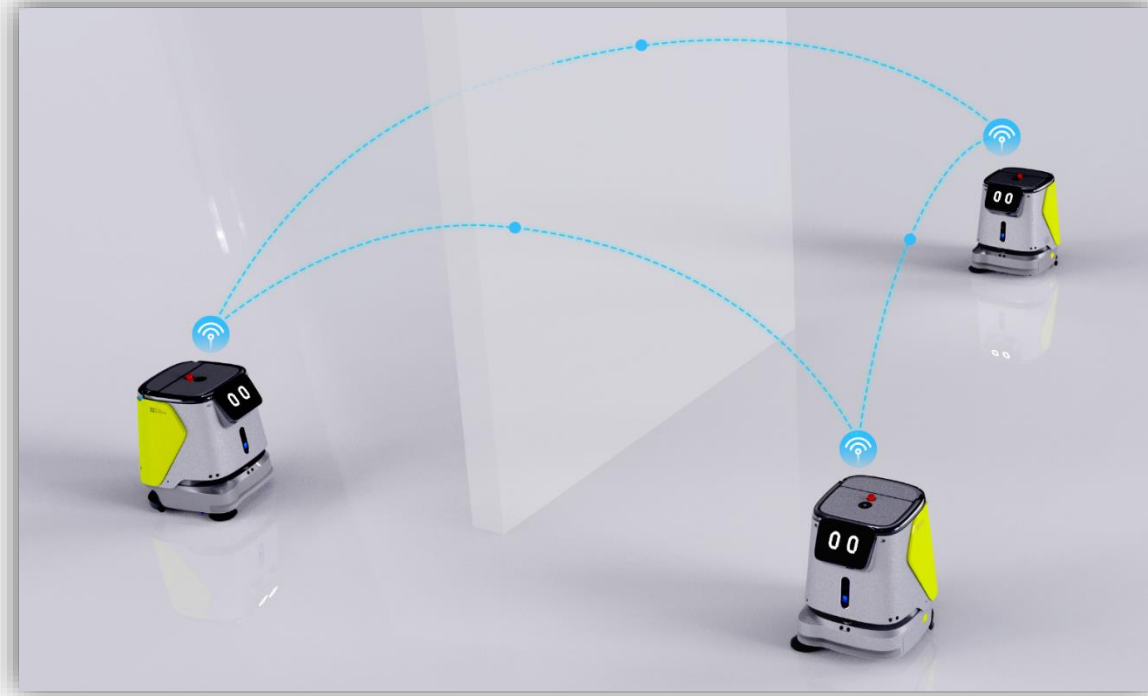

- Based on PUDU SLAM positioning system, CC1 supports both **Visual SLAM** and **Laser SLAM** positioning and navigation solutions to perform tasks more efficiently in complex scenarios.
- Equipped with **Multi-fusion sensors**, it can stop at any angle and move away as soon as it encounters obstacles.

Breakpoint Resume Cleaning

- When the power is low and the cleaning task is not completed, the robot can **remember the cleaning progress and resume the previous unfinished task** after being fully recharged.

Multi-machine Intelligent Scheduling

- Based on PUDU Scheduler technology, it supports **multi-machine intelligent scheduling** and realizes **multi-machine collaborative operation**, **automatic replacement**, **multi-machine to multi-workstation** and other functions, and realizes the systematic operation of robots in office buildings/residential buildings.

About Pudu

Product Values

PUDU CC1

Intelligent Commercial Cleaning Robot

- Enhances cleaning efficiency and public image
- Improve cost effectiveness and cleaning quality
- Reallocates custodial efforts to higher-value tasks
- Provides detailed reports for a measurable clean

- **Simplify your cleaning processes and improve your workflow:** pre-set program enables CC1 to start operating automatically and immediately
- Stable cleaning efficiency and **higher quality of cleaning**

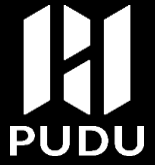

- Reduce risks of workforce challenges, such as employee absenteeism and turnover
- Redeploy labor: **Employees can focus on more complex responsibilities**, ensuring more productivity.

- **Lower** recruitment, training and management **costs:** simple operation and user-friendly interface, set up and use in hours with minimal training

- With **measurable records and reports**, custodial inspections can be easily dealt with, and work status can be optimized.

About Pudu

Pudu Robotics

A tall, modern glass skyscraper with the Pudu Robotics logo on its upper facade, set against a cloudy sky.

Shenzhen-based and founded in 2016, Pudu Robotics is a world-leading tech-focused enterprise dedicated to the design, R&D, production and sales of commercial service robots on a mission to use robots to improve the efficiency of human production and living.

Since its inception, Pudu Robotics has heavily invested in R&D, obtained multiple awards such as Red Dot and applied hundreds of core patents to lead the development of the robotics category and provide high technology products that would appeal to targeted markets. Pudu Robotics has been rapidly growing in recent years to become a "leader" in the global markets with coverage of over 60 countries worldwide. The robots are widely applied in restaurants, hospitals, schools, office buildings, government halls, subway stations, waiting rooms, etc.

Sales Network

Pudu Robotics is exploring the global markets rapidly and currently with the coverage of over 60 countries and 600 cities worldwide. We are on the way to explore and deliver more to the future!

PVA
HYGIENE LTD

The background of the advertisement is a photograph of a light-colored, speckled floor. In the center, a mop head with a blue plastic connector is shown. To its right, a separate mop head with a similar blue connector is shown, demonstrating the 'Refill Mop' concept. The mop heads are made of white, pleated fabric. A black bucket is partially visible in the upper right background.

The environmentally-friendly Refill Mop from Robert Scott

A patented, eco-friendly and cost-effective mop with detachable, reusable sockets.

Robert Scott is the UK's largest manufacturer of socket mops, supplying some 23 million a year to the commercial cleaning sector.

That's why it's important that we do this in a responsible way, and why we make mops using 100% recycled fabric in our mills in Lancashire. This reuses a by-product that would have otherwise have ended up as waste in landfill.

However, as mops are semi-disposable we wanted to go further and that's why we invented the Refill Socket Mop, which consists of a reusable socket and semi-disposable yarn refill. This means the socket can be used time and time again, while the disposable yarn refills are much easier to recycle at end of life.

Plus, it's colour coded to prevent cross-contamination, making it a more hygienic, cost-effective and eco-friendly way to mop.

Key features & benefits

Recycle

Reusable

Environmental

Colour coded

- An environmentally-friendly alternative to the traditional socket mop.
- Easy to fit, washable and long lasting.
- Choice of cotton-rich mop, or low-linting, highly absorbent Big White mop.
- Cost-effective as only dispose of yarn.

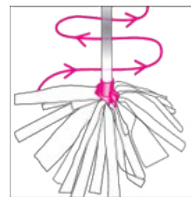

How to use

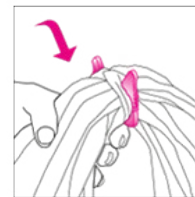

Fit mop head into socket

Secure socket with handle

Mop floor

Replaced with new mop head

How much plastic would you save?

The average socket contains 25g of plastic. So, multiply the number of mops you use a week, month or year by 0.025 to calculate the kilograms of plastic saved.

If all of our mops were Refill mops we would save nearly 600 tonnes a year; the equivalent of 30 million plastic bottles or the weight of 50 double decker buses.

Promote good hygiene

Did you know?

The light brown colour comes from using recycled cardboard boxes as one of the fibre sources.

Make a great impression and show your commitment to sustainability by changing to Tork Natural colour hand towels and toilet paper. Same high quality — in a new colour.

87%

of restaurant visitors like the idea of recycling single use products, like cartons to make paper towels.*

85%

of office workers are willing to use toilet paper in a natural colour at the office – as long as the quality is the same to what they are used to.*

Tork offers

a full assortment of efficient and reliable dispenser systems, sustainable tissue products and data driven cleaning services to cover all areas of your business.

Improve your sustainability performance

Tissue made of 100% recycled fibres

Between 30% and 50% of the tissue comes from recycled cardboard boxes

The light brown tissue colour comes from the recycled materials. No dyes added in the paper making

All Tork Natural colour hand towels can be used with Tork PaperCircle® recycling service

Certifications:

Refills are EU Ecolabel and Forest Stewardship Council® (FSC®) certified. This guarantees that the tissue is made with fibre from responsibly managed forests and other controlled sources. Hand towels are Food Contact Approved for wiping.

For Wiping

To complete your offer have you considered Tork Natural Napkins and Tork Clarity Hand Washing Foam Soap?

Don't say goodbye – say we'll meet again

Close the loop with the world's first recycling service for paper hand towels

**We bring
your paper
back again**

Tork PaperCircle

The world's first recycling service for paper hand towels.

Around the world companies are shifting to a circular economy, closing the loop for every part of their business. At Tork, we're doing our part to help. That's why we've created Tork PaperCircle® – the world's first recycling service for paper hand towels.

We help your business go circular by closing the loop – recycling your used hand towels locally into new tissue products. Tork PaperCircle is a complete solution to reduce your waste and cut your carbon footprint for paper hand towels by 40%*, making an important statement to your employees and visitors.

How Tork PaperCircle works

Our dedicated team supports you throughout setup, implementation and ongoing use to ensure your transition to a circular economy is smooth and efficient.

Your visitors and employees use the washrooms as usual, but throw their paper hand towel in a separate bin after drying their hands

Cleaners empty the bins as usual but keep the hand towels separate on the trolley

Our recycling partner collects the paper hand towels and brings them to the local Essity mill

The Essity mill recycles the paper hand towels into new tissue products

Your used paper hand towels are put back into the loop as new tissue products

At least

-40%

Carbon footprint

compared to current waste handling options*

Whats in it for you?

Close the loop

ensuring that your used paper towels become new recycled paper products and not waste

Reach your waste and carbon footprint targets

to become a more sustainable and circular business

Showcase your commitment

to sustainability by providing statistics and feedback to use in communications

Draw attention

to your sustainability initiatives through creative communication and signs in the washroom

* For paper hand towels, compared to incineration with heat recovery. Results of a life cycle analysis (LCA) conducted by Essity Tork and verified by IVL, Swedish Environmental Research Institute Ltd, 2017, where the avoided processes have been taken into account.
